AI SALES WORKFLOWS FOR SMALL BUSINESSES & INDEPENDENT REPS

Let AI run the busywork of selling. You keep the relationships.

ATG Consulting helps small business owners and independent salespeople set up AI workflows that handle the grind: finding leads, researching accounts, drafting outreach, following up, and keeping your inbox and CRM clean. Nothing goes out without your OK. The workflow handles the prep and the reminders. You do the selling.

Prospecting | Account research | Outreach drafts | Follow-ups | Inbox triage | CRM upkeep

THE PROBLEM

Selling has turned into admin.

- Hours go into building lists and digging up background before you can send one good email.
- Follow-ups slip when you're busy. That's where most deals go quiet.
- Your CRM is always a week behind. Sometimes it's a spreadsheet, sometimes it's your memory.
- There are AI tools everywhere, but nothing connects them into a process you can rely on.

HOW IT WORKS

Map it. Build it. Tune it.

1. **Map how you sell today.** We walk through your week and find the steps that eat your time.
2. **Build the workflow.** We connect the tools you already use, or add a few simple ones. No lock-in to any one platform.
3. **Run it and tune it.** You approve drafts, it learns your voice, and we tighten it until it runs on its own.
